# QUALITY ENGINEERING CASE STUDY

## EXAMPLE CASE

### Client profile

Industry: Marine Technology

Size: 300+ Employees

Location: Surrey, UK

Position: Supplier Quality Manager

## EXAMPLE OF ROLES FILLED

- Product Quality Engineer
- Supplier Quality Engineer
- Head of Quality
- Quality Specialists
- Director of Quality

## CHALLENGES

Challenges included:

- Salary Brackets
- A limited pool of suitable candidates
- In demand niche Skillset

Despite these challenges, we worked closely with our client to successfully identify and place the right candidates.

## SOLUTIONS

In the first week, we briefed the role carefully to avoid wasting time on irrelevant CVs. We then used our database to create a shortlist of potential candidates who weren't actively seeking new roles and also used our other resources. This resulted in a list of four strong candidates, all of whom we interviewed. Subsequently, one of these candidates was offered the role.

## SUMMARY

We helped the client through the use of our multiple resources and high end advertising platforms that helped uncover candidates that most wouldn't find. We understand the candidate shortage is set to stay, so we have developed a solution that can be tailored to meet each client's unique needs.

## ABOUT US

Enterprise Recruitment Ltd are a recruitment partner, specialising in the engineering and technical sector. We have been established for over 20 years. Our consultants are technical specialists who quickly understand complex requirements and only put forward quality applicants. Appointing us to do what we do best allows our clients to spend more time on what they do best.

## TESTIMONIALS

“Maria has been an absolute star with recruitment support. Not only does she come with great expertise and knowledge, Maria listened to our brief and employment needs and provided us with great candidates. Maria kept us up to date with any changes and made sure from her end the process ran smoothly. Thank you so much for your support and would definitely come to Maria again for future support”
